

Edgewood Gardens Snowdrops & Companion Bulbs

August 2024

This list represents the dormant bulbs that are currently available for sale, subject to availability. Unsold bulbs will be potted up in mid-September. Forms of *Galanthus reginae-olgae* and *G. bursanus* that I have named will be available from November onwards as growing bulbs.

Please order as soon as possible; quantities are very limited.

Email your orders to info@edgewoodgardens.net.

Species bulbs have been raised from seed collected in habitat. In many cases, multiple clones of species are available.

Galanthus Cultivars	\$ Each
Anglesey Orange Tip	95
Baylham	45
Blewbury Tart	45
Button	45
